

LEGO Robotics Summer Academy

 **For Girls aged 12-19 yrs**

 **Tues. 4 – Fri. 7 June 2019**

 **St. Pat's Campus,
Dublin City University,
Drumcondra, Dublin 9**

This June the DCU LEGO Education Innovation Studio in association with the Irish Girl Guides will be running a LEGO Education Robotics Academy.

The Academy will introduce students to robotics through engaging, hands-on workshops. Students will discover programming concepts, experience elements of computational thinking and develop and understanding of a range of mechanical engineering principles.

Led by Prof. Deirdre Butler and LEGO Education Academy Trainer Ross Maguire this academy will promote further education and careers in STEM & ICT, develop a range of skills in computational thinking, engineering and programming and above all else be fun, engaging and hands on!

**The event is fully catered in indoor accommodation on campus and all activities are included.
Cost to participate is €150 and travel will be refunded.**

**To request an application form for this Camp please
send an email to events@irishgirlguides.ie
Deadline for return of form is 16 May 2019.**
